---

Dear Readers,

Season's greetings!

We are pleased to bring you the Seventh issue of 2020. Along with few original papers, reviews and an editorial, for this issue we decided to acknowledge the contributions during this COVID-19 crisis.

We would like to appreciate your interest and supports towards the Australasian Medical Journal (AMJ). We understand the difficulties that everyone is facing during this pandemic, but we assure you that we do our best to provide you the quality review process at a regular pace. With that in mind, we would like to express our sincere thanks to the AMJ editorial team who evaluate papers, manage the publication process and respond to authors.

Thank you, too, to the editorial board members who have supported the journal since its inception and who continue to promote its growth. And to the reviewers, we appreciate the time you dedicate to ensuring papers meet our standards for scientific quality and integrity.

The AMJ was founded to help junior researchers and authors from developing countries learn about the rigour involved in preparing a manuscript for publication and in getting published. We remain committed to that objective. As well, we continue to receive more papers from leading researchers in Australia, Saudi Arabia, China, the United States and other countries, which is a testament to our commitment to quality.

We look forward to continued success and growth. Consider signing up to be a reviewer or recommending reviewers to us. Submit a paper to the AMJ for publication and recommend the journal to others as a venue for publishing

their academic research.

We are dedicated to publish the most complete and reliable source of information on the discoveries and current developments in all the areas of medicine which include Allergy/Immunology, Anesthesia, Cardiology, Dermatology, Emergency Medicine, Endocrinology, Gastroenterology, Genetics, Geriatrics/ Aging, Hematology/ Oncology, Internal Medicine, Infectious Disease, Nephrology, Neurology/ Neurosurgery, Obstetrics/ Gynecology, Pediatrics, Primary Care/ Hospitalist, Psychiatry, Pulmonary/Critical Care, Rheumatology, and Surgery, Urology.

The AMJ is a peer-reviewed online/open access journal which publishes current research activities and outcomes in any form of science communication related to basic, experimental and clinical aspects of medical research.

We request you to submit your manuscripts online at [Medicine](http://www.amj.net.au) or as an email attachment to [editor@amj.net.au](mailto:editor@amj.net.au)

If you have any questions, email AMJ Editor. Wishing you all the best for 2020!

Sincerely,

**Rick Steves**
